

CANTINA VALLE ISARCO CLASSIC MÜLLER-THURGAU 2016

Wine Introduction

The Müller-Thurgau variety is a Riesling and Madeleine Royale hybrid created in Geisenheim (Germany) at the end of the 19th century by the Swiss botanist Hermann Müller, who gave it this name because he came from the Thurgau canton. This grape variety prefers the elevated and sunny hillsides of the Valle Isarco featuring a thinly structured soil. The colder climate of these higher altitude areas, especially the fresh nights during grape ripening season, gives Müller Thurgau its typical freshness and the variegated bouquet to which it owes its fame.

Tasting Notes

The colour ranges from slightly greenish to straw yellow, with an intense bouquet of zesty citrus and elderflower. It is very refreshing on the palate, with a full and pleasant body and a lot of character. It is also slightly aromatic with hints of spice.

Winemaker Vintage Notes

2016 - A fairly warm season was followed by an autumn with the ideal temperature fluctuations between day and night to develop intense aromas and the optimal ripeness of the grapes. Variety after variety could be harvested at just the right moment. The 2016 wines of the Isarco Valley present themselves without exception as very characteristic of their variety, with prominent fruity tones and with great elegance.

Winemaker Vinification Notes

Delicate processing and crushing are followed by temperature-controlled fermentation and ageing on fine lees in stainless steel tanks with a lack of malolactic fermentation.

Wine Information

Country:	Italy
Region:	Alto Adige
Winemaker:	Hannes Munter
Grape:	100% Müller-Thurgau
Alcohol:	12.5%
Total Acidity:	5.40g/L
pH:	3.40
Closure:	Cork
Bottle Size:	75cl
Case Size:	6 Bottles per pack
